What's New

Forms

For the 2001 tax year, a new form is available for nonresidents and part-year residents: Short Form 540NR, California Nonresident or Part-year Resident Income Tax Return. The Short Form 540NR is for nonresident and part-year taxpayers who have limited income sources and deductions. The Form 540NR name has been changed to Long Form 540NR, California Nonresident or Part-year Resident Income Tax Return. References to the Form 540NR in this booklet mean the Long Form 540NR.

General Information

California has established four types of economic development areas (EDAs) that have related tax incentives:

- Enterprise Zones (EZ);
- Local Agency Military Base Recovery Areas (LAMBRA);
- Manufacturing Enhancement Areas (MEAs); and
- The Targeted Tax Area (TTA).

A business may qualify for special deductions and credits if it operates or invests in a trade or business located within the geographic boundaries of one of these EDAs.

California statutes require the Franchise Tax Board (FTB) to provide information to the California Legislature and the California Technology, Trade and Commerce Agency (TTCA) regarding the number of businesses using the EDA tax incentives, types of EDA tax incentives being used, and in which EDAs the businesses are claiming the tax incentives.

Complete items A through J on form FTB 3808, Manufacturing Enhancement Area Credit Summary, as applicable. This informa-

tion will be used to meet the FTB's statutory reporting requirement.

For information about:

- Enterprise zone tax incentives, get FTB 3805Z, Enterprise Zone Business Booklet;
- LAMBRA tax incentives, get FTB 3807, Local Agency Military Base Recovery Area Business Booklet; or
- TTA tax incentives, get FTB 3809, Targeted Tax Area Business Booklet.

Federal/State Conformity

In general, California law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service Restructuring and Reform Act of 1998 (Public Law 105-206) and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170). California has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), the FSC Repeal and Extraterritorial Income Exclusion Act of 2000 (Public Law 106-519), the Consolidated Appropriations Act of 2001 (Public Law 106-554), and the Economic Growth and Tax Relief Reconciliation Act of 2001 (Public Law 107-16).

A Purpose

Use this booklet to determine the correct amount of hiring credit that a business may claim for operating or investing in a trade or business within an MEA. Complete the worksheets in this booklet for the MEA hiring credit. Then enter the hiring credit amount on form FTB 3808.

B How to Claim The Credit

To claim the MEA hiring credit, the business **must attach** a completed form FTB 3808 to its California tax return.

Attach a separate form FTB 3808 for each business you operate or invest in that is located within an MEA.

- For corporations that operate a business in an MEA, complete all the Worksheets except for Worksheet II, Section B to report credits and deductions incurred.
- For sole proprietors that operate a business in an MEA, complete all the worksheets to report credits and deductions incurred.
- For trusts, estates, partnerships, and LLCs that are classified as partnerships that operate in an MEA, complete Worksheet I, Worksheet II, Section A, and form FTB 3808, Side 1 to report credits and deductions incurred.

- Individual investors receiving pass-through MEA credits, or the business expense deduction, complete Worksheet II, Section B, Worksheet III, and form FTB 3808, Side 1. All other investors, complete Worksheet II, Section A, Worksheet III, and form FTB 3808, Side 1.

To assist with the processing of the tax return, indicate that the business operates or invests within an MEA by doing the following:

Form 540 filers: Claim the MEA tax incentive on Form 540, lines 14 and 28, as applicable.

Form 540NR filers: Claim the MEA tax incentive on Form 540NR, lines 14 and 37, as applicable.

Form 100 filers: Claim the MEA tax incentive on Form 100, line 15, and line 25 through line 27, as applicable.

Form 100S filers: Claim the MEA tax incentive on Form 100S, line 23 through line 25, as applicable.

Form 100W filers: Claim the MEA tax incentives on Form 100W, line 15, and line 25 through line 27, as applicable.

Form 109 filers: Check the "Yes" box for the EZ, LARZ, LAMBRA, MEA, or TTA question G on the top of Form 109, Side 1.

Note: Be sure to keep all completed worksheets and supporting documents for your records.

C Manufacturing Enhancement Area Designation

MEAs were established in California to stimulate development in selected economically depressed areas. The MEA provides a hiring incentive for entities and individuals who operate or invest in a business located within a designated MEA. Businesses operating within an MEA do not need to qualify or receive prior approval to take advantage of this special tax incentive. However, to take advantage of the hiring credit, a completed Form TCA EZ1 should be obtained from the local agency responsible for verifying employee eligibility.

Note: There are two MEAs in California. They are the cities of Brawley and Calexico and are both located in Imperial County. They received their final designation as MEAs effective October 1, 1998.

D Important Consideration

The MEA tax incentive is available to businesses operating within an MEA and can **only**

be taken for wages paid or incurred **on or after** the date the area received final designation and before the designation expires.

E Geographic Boundaries

The geographic boundaries of an MEA are used to determine whether the tax incentive is available to a business in a specified location. Further information about the geographic boundaries of an MEA is available from:

Instructions for Qualified Taxpayer's Standard Industrial Classification (SIC) Code Activity

The FTB implemented the new Principal Business Activity (PBA) code chart that is based on the North American Industry Classification System (NAICS), 1997 Edition. The PBA codes are listed on pages 15 through 17. However, for purposes of qualifying for the MEA hiring credit, refer to pages 13 and 14 for a list of qualified SIC codes. The PBA and NAICS codes **cannot** be used. Do not enter the PBA code from your state or federal tax return.

Enter the SIC code of the establishment that qualifies you to take this credit on form FTB 3808, Side 1. If your enterprise has more than one establishment, and if more than one of the establishments qualifies you to take this credit, enter the SIC code that best represents your primary qualifying establishment.

Instructions for items A through J

For corporations, estates, trusts, partnerships, LLCs classified as partnerships, exempt organizations, and sole proprietors who operate businesses in an MEA, complete items A through J.

Investors of pass-through entities, complete items A through D. See page 19.

Part I Hiring Credit

A qualified employer conducting a trade or business within an MEA may claim a hiring credit for wages paid or incurred to hire certain disadvantaged individuals. Qualified employers must:

- Be engaged in a line of business described in Standard Industrial Classification (SIC) Codes 0211 through 0291, Code 0723, or Codes 2011 through 3999 of the Standard Industrial Classification Manual, 1987 Edition;
- Conduct a trade or business within the MEA;
- Have at least 50% of its workforce that was hired after the MEA designation, be residents of the county in which the MEA is located at the time of hire; and
- Have at least 30% of the qualified county resident workforce described above be qualified disadvantaged individuals.

A "qualified disadvantaged individual" is an individual who at the time hired was any of the following:

1. A person receiving or eligible to receive subsidized employment, training, or services funded by the federal Job Training Partnership Act (JTPA), or its successor; or
2. A person eligible to be a voluntary or mandatory registrant under the Greater Avenues for Independence Act of 1985 (GAIN), or its successor; or

3. A person who has been certified eligible under the federal Targeted Jobs Tax Credit Program, whether or not this program is in effect.

An employer may claim a credit for the qualified wages paid or incurred to a qualified disadvantaged individual who:

- Was hired after the MEA received its final designation (See General Information C, Manufacturing Enhancement Area Designation);
- Spends at least 90% of his or her work time for the qualified employer on activities directly related to the conduct of a trade or business activity within the boundaries of the MEA; and
- Performs at least 50% of the work for the qualified employer within the boundaries of the MEA.

The percentage of wages used to compute the credit depends on the number of years the employee works for the employer in the MEA. The applicable percentage begins at 50% and declines 10% for each year of employment. After the fifth year of employment, no credit can be generated.

Wages that qualify for the hiring credit are those wages paid or incurred to hire a qualified disadvantaged individual for the consecutive 60-month period beginning on the first day the individual commenced employment with the employer. For an employer that operates a business that has regularly occurring seasonal or intermittent employment decreases and increases, reemployment of an individual is not a new hire; rather, it is a continuation of the prior employment and does not constitute commencement of employment for the qualified wages test.

The credit is based on the smaller of the following:

- The actual hourly rate paid or incurred by the employer for work performed by the employee during the taxable year; or
- **150% of the minimum hourly wage** established by the Industrial Welfare Commission.

Where the California minimum wage is higher than the federal minimum wage, the California minimum wage is used for purposes of computing the MEA hiring credit. Effective January 1, 2001, the established minimum wage is \$6.25 per hour. Effective January 1, 2002, the minimum wage is increased to \$6.75 per hour. For purposes of computing the MEA hiring credit, 150% of the minimum wage is \$9.37 per hour (\$10.12 beginning January 1, 2002).

Example:

John Anderson was hired January 1, 2001. John's hourly rate for month 1 was \$7.00. At the beginning of month 2, his hourly rate increased to \$8.00. For month 3, John's hourly rate increased to \$10.00. The hourly rate that qualifies for the credit is limited to 150% of the minimum wage, or \$9.37 per hour.

Month(s)	Hours x per month	Hourly rate	Qualified wages per month
1	175	\$7.00	\$1,225.00
2	170	8.00	\$1,360.00
3	170	9.37	\$1,592.90

Record Keeping

For each qualified employee, keep a schedule of the first 60 months of employment showing (at least):

- Employee's name;
- Date the employee was hired;
- The employee's address at the time of hire;
- Number of hours the employee worked for each month of employment;
- Smaller of the hourly rate of pay for each month of employment or 150% of the minimum wage;
- Location of the employee's job site and duties performed; and
- Total qualified wages per month for each month of employment.

Instructions for Worksheet I — Hiring Credit & Recapture

Section A – Credit Computation

Line 1, column (a) – Enter the name of each qualified employee. Attach additional schedule(s) if necessary.

Line 1, column (b) through column (e) – Enter the qualified wages paid or incurred during the taxable year to each employee listed in column (a) in the appropriate column.

Line 2, column (b) through column (e) – Add the amounts in each column. **Note:** The cumulative qualified wages used to compute the MEA hiring credit cannot exceed \$2,000,000. This limit applies to **each** taxpayer for **each** taxable year.

Line 3, column (b) through column (e) – Multiply the total in each column of line 2 by the percentage in each column.

Line 5 – The federal jobs tax credit to include on this line is the Work Opportunity Tax Credit (Currently, this line will be zero since California conforms to the IRC as of January 1, 1998).

Note: No other California jobs tax credit may be claimed for the same wage expense paid to employees shown in line 1, column (a).

Line 6 – For partnerships and LLCs classified as partnerships, enter the amount from line 6, on form FTB 3808, Side 1, Part I, line 1a. Also, include the current year hiring credit amount on Forms 565 and 568, Schedule K, line 14 and the distributive share of the credit to partners and members on Schedule K-1 line 14. In addition, add the entire amount of the credit on Schedule K, line 1, column (c).

For corporations, individuals, estates, and trusts, enter the amount from line 6 on form FTB 3808, Side 2, Worksheet III, as follows:

- Part II, line 6B, column (b) for corporations, individuals, and estates and trusts;
- Part III, line 7, column (b) for S corporations; or

- Part IV, line 8, column (b) for corporations and S corporations subject to paying only the minimum franchise tax.

Credit Limitations

- The cumulative qualified wages used to compute the MEA hiring credit cannot exceed \$2,000,000. This limit applies to **each** taxpayer for **each** taxable year, regardless of the number of qualified disadvantaged individuals employed.
- Businesses must reduce any deduction for wages by the amount of the MEA hiring credit on Worksheet I, Section A, line 6.
- S corporations are allowed only 1/3 of the credit. S corporations must reduce their wage deduction by 1/3 of the amount on Worksheet I, Section A, line 6 and on Form 100S, line 7. In addition, the S corporation must make an adjustment for the entire amount of the credit on Schedule K (100S), line 1, column (c).

Example: In 2001, an S corporation qualified for a \$3,000 MEA hiring credit. The S corporation can claim a credit for \$1,000 (\$3,000 x 1/3). On Form 100S, Schedule K, line 1, column (c), the S corporation would add \$3,000 to the S corporation's ordinary income or loss to reflect the credit passed through to the shareholder(s).

- The amount of hiring credit claimed may not exceed the amount of tax on the MEA business income in any year. Use Worksheet III on Side 2 of form FTB 3808 to compute the credit limitation.
- In the case where an employee qualifies the business to take the MEA hiring credit as well as another credit for the same wage expense, the business may claim only one credit for that wage expense.
- The business may carry over any unused hiring credit to future years until the credit is exhausted. In the case of an S corporation, 2/3 of the credit is lost and the remaining 1/3 can be carried over if it cannot be used in the current year.

For additional information about the treatment of credits for S corporations, see Part III.

Section B – Credit Recapture

The employer must recapture (add back to the tax liability) the amount of credit attributable to an employee's wages if the employer terminates the employee at anytime during the longer of:

- The first 270 days of employment (whether or not consecutive); or
- 90 days of employment plus 270 calendar days.

Employers of seasonal employees must recapture the amount of credit attributable to a seasonal employee's wages if the employer terminates employment before the completion of 270 days of employment during the 60-month period beginning the day the employee commences employment with the employer.

A "day of employment" means any day for which the employee receives wage compensation (including a paid sick day, holiday, or vacation day).

The employer must add to the current year's tax the amount of credit claimed in the year of termination and all prior years in which the credit was claimed for the terminated employee.

Note: The credit recapture does not apply if the termination of employment was:

- Voluntary on the part of the employee;
- In response to misconduct of the employee;
- Caused by the employee becoming disabled, (unless the employee was able to return to work and the employer did not offer to reemploy the individual);
- Carried out so that other qualified individuals could be hired, creating a net increase in both the number of qualified employees and the number of hours worked; or
- Due to a substantial reduction in the employer's trade or business operations.

Line 1, column (a) – Enter the name of the terminated employee. Attach additional schedule(s) if necessary.

Line 1, column (b) – Enter the amount of credit recapture for each employee listed in column (a).

Line 2 – Enter the amount from line 2, column (b) on form FTB 3808, Side 1, line 3. Also, include the amount of hiring credit recapture on your California tax return or schedule as follows:

- Form 100, Schedule J, line 5;
- Form 100S, Schedule J, line 5 and Schedule K-1 (100S), line 23;
- Form 100W, Schedule J, line 5;
- Form 109, Schedule K, line 4;
- Form 540, line 36;
- Form 540NR, line 45;
- Form 541, line 21b and Schedule K-1 (541), line 11e;
- Form 565, Schedule K, line 22 and Schedule K-1 (565), line 22; or
- Form 568, Schedule K, line 22 and Schedule K-1 (568), line 22.

Indicate that you included the hiring credit recapture on your tax return by writing "**FTB 3808**", in the space provided on the schedule or form.

Partnerships and LLCs classified as partnerships must identify the recapture amounts for their partners and members on Schedule K-1 (565 or 568).

S corporation shareholders must recapture the portion of credit that was previously claimed, based on the terminated employee's wages. S corporations must also identify the recapture amount for shareholders on Schedule K-1 (100S). This amount will differ from the amount recaptured by the S corporation on Form 100S, Schedule J.

Part II Doing Business Totally Within an MEA, Within and Outside an MEA, or in More than One MEA

The MEA tax incentive is limited to the tax on business income attributable to operations within the area. If the business is located totally within an MEA, within and outside an MEA, or in more than one MEA, you must determine the portion of total business operations that are attributable to each MEA.

Business Income vs. Nonbusiness Income

Only business income is apportioned to the MEA to determine the incentive limitation. The MEA tax incentive is limited to tax on business income attributable to the operations within the MEA.

Business income is defined as income arising from transactions and activities in the regular course of the trade or business. Business income includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the regular trade or business operations. Nonbusiness income is all income other than business income. Get Title 18 Cal. Code Reg. Section 25120 for further references and examples of nonbusiness income.

For an individual, business income includes but is not limited to, California business income or loss from Schedules C, D, D-1 (or federal Form 4797, Sales of Business Property, if you did not have to file a Schedule D-1), E, and F, as well as wages. Be sure to include casualty losses, disaster losses, and any business deductions reported on federal Form 1040 Schedule A as itemized deductions.

In essence all income which arises from the conduct of trade or business operations of a taxpayer is business income.

Note: If you elected to carry back part or all of your current year disaster loss under IRC Section 165(i)(1), do not include the amount of the loss that was carried back in your current year business income for the MEA.

Pass-through entities must report to their shareholders, beneficiaries, partners, and members:

1. The distributive (or pro-rata for S corporations) share of the business income apportioned to the MEA; and
2. The distributive (or pro-rata for S corporations) share of the business capital gains and losses apportioned to the MEA included in item 1.

These items should be reported using the appropriate California schedules listed below:

- Schedule K-1 (100S), line 23;
- Schedule K-1 (541), line 11e;
- Schedule K-1 (565), line 22; or
- Schedule K-1 (568), line 22.

Form 540 and Form 540NR filers, refer to Worksheet II, Section B to compute business income apportioned to the MEA.

For business entities, including sole proprietors, use Worksheet II, Section A to compute business income apportioned to the MEA.

Income Apportionment

Business income is apportioned to an MEA by multiplying the total California business income of the taxpayer by a fraction. The fraction consists of numerator which is the property factor plus the payroll factor, and the denominator which is two.

Property Factor

Property is defined as the average value of all real and tangible personal property owned or rented by the business and used during the taxable year to produce business income.

Note: Property is included in the factor if it was available for use during the taxable year.

Property owned by the business is valued at its original cost. **Original cost** is the basis of the property for federal income tax purposes (prior to any federal adjustment) at the time of acquisition by the business, adjusted for subsequent capital additions or improvements and partial dispositions because of sale or exchange. Allowance for depreciation is not considered.

Rented property is valued at eight times the net annual rental rate. The net annual rental rate for any item of rented property is the total rent paid for the property, less aggregate annual subrental rates paid by subtenants.

The **numerator** of the property factor is the average value of the real and tangible personal property owned or rented by the business and used within the MEA during the taxable year to produce MEA business income (column (b)).

The **denominator** of the property factor is the total average value of all real and tangible personal property owned or rented and used during the taxable year within California (column (a)).

Payroll Factor

Payroll is defined as the total amount paid to the business's employees for compensation for the production of business income during the taxable year.

Compensation means wages, salaries, commissions, and any other form of remuneration paid directly to employees for personal services.

Payments made to independent contractors or any other person not properly classified as an employee are excluded.

Compensation Within the MEA

Compensation is considered to be within the MEA if any one of the following tests is met:

1. The employee's services are performed within the geographical boundaries of the MEA; or
2. The employee's services are performed within and outside the MEA, but the services performed outside the MEA are incidental to the employee's service within the MEA.
Incidental means any temporary or transitory service rendered in connection with an isolated transaction.
3. If the employee's services are performed within and outside the MEA, the employee's compensation will be attributed to the MEA if:
 - A. The employee's base of operations is within the MEA; or
 - B. There is no base of operations in any other part of the state in which some part of the service is performed, but the place from which the service is directed or controlled is within the MEA; or
 - C. The base of operations or the place from which the service is directed or controlled is not in any other part of the state in which some part of the service is performed but the employee's residence is within the MEA.

Base of operations is the permanent place from which the employees start work and customarily return in order to receive instruction from the taxpayer or communications from their customers or persons; to replenish stock or other material; to repair equipment; or to perform any other functions necessary in the exercise of their trade or profession at some other point or points.

The **numerator** of the payroll factor is the total compensation paid to employees for working within the MEA during the taxable or income year (column (b)).

The **denominator** of the payroll factor is the total compensation paid to employees working in California (column (a)).

Corporations Which File a Combined Report

Business income for each corporation doing business in an MEA will be its business income apportioned to California (See FTB Pub. 1061 for further information on combined reports and entity income apportionment.) The MEA property and payroll factors used in the determination of MEA income includes only the taxpayer's California amounts in the denominator.

Example: Computation of MEA income assigned to each entity operating within the MEA

Parent Corporation A has two subsidiaries, B and C. Corporations A and B operate within an MEA. The combined group operates within and outside California and apportions its income to California using Schedule R. Assume the combined group's business income apportioned to California was \$1,000,000 and Corporation A and B's share of California business income is \$228,000 and \$250,000 respectively. Corporation A and B's separate MEA and separate California property and payroll factor amounts are shown below. Business income apportioned to the MEA was determined as follows:

	A	B
Property Factor		
MEA property	\$1,000,000	\$ 800,000
California property	\$1,000,000	\$1,200,000
Apportionment %	100%	66.66%
Payroll Factor		
MEA payroll	\$800,000	\$ 800,000
California payroll	\$800,000	\$1,000,000
Apportionment %	100%	80%
Average Apport. %	100%	73.33%
<small>(Property + Payroll Factors) 2</small>		
Apportioned Business Income	\$228,000	\$250,000
MEA Income	\$228,000	\$183,333

Instructions for Worksheet II — Manufacturing Enhancement Area

Section A – Income Apportionment

Note: If the business operates solely within a single MEA and all its property and payroll are solely within that single MEA, you do not have to complete this worksheet. Enter 100% (1.00) on line 4.

Use Worksheet II, Section A, Income Apportionment, to determine the amount of business income apportioned to the MEA. The MEA business income determines the amount of the tax incentive that can be used.

Only California source business income is apportioned to the MEA. A taxpayer's MEA business income is its California apportioned business income multiplied by the specific MEA apportionment percentage.

The MEA property and payroll factors used in the determination of apportionable business income include only the taxpayer's California amounts in the denominator.

Worksheet II Manufacturing Enhancement Area

Note: The average apportionment percentage shown on line 4 represents the portion of the taxpayer's total business that is attributable to activities conducted within the MEA. Also, those factors with zero balances in the totals of column (a) will not be included in the computation of the average apportionment percentage. For example, if the taxpayer does not have any payroll within or outside the MEA, then the average apportionment percentage would be computed by dividing line 3 by one instead of by two as normally instructed.

Section B – Income or Loss

Form 540 and Form 540NR filers, use Worksheet II, Section B to determine the amount to enter on Worksheet III, Side 2 of form FTB 3808, Part I, line 1 and line 3.

Do not include disaster losses in any amounts used in the table.

Only California source business income is apportioned to the MEA.

The first step is to determine which portion of the taxpayer's net income is "business income" and which portion is "nonbusiness income," since only business income may be apportioned to the MEA. See Part II, Doing Business Totally Within an MEA, Within and Outside an MEA, or in More than One MEA, for a complete discussion of business and nonbusiness income.

Business income or loss reported on federal Form 1040 Schedules C, C-EZ, E, F, and other schedules are reported on lines 6 through line 9. Line 11 and line 12 report business gains or losses reported on Schedule D and Schedule D-1. All business income and losses should be adjusted for any differences between California and federal amounts as shown on the Schedule CA.

Part I Individual Income and Expense Items

Wages

Taxpayers with wages from a company located within and outside an MEA must determine the MEA wage income by entering the percentage of the time that they worked within the MEA in column (b) (during the period for which the wages entered on line 1 were earned). This percentage must be determined based on their record of time and events such as a travel log or entries in a daily planner.

Part II Pass-Through Income or Loss

Multiple Pass-Through Entities

If you are a shareholder, beneficiary, partner, or member in multiple pass-through entities with businesses located within and outside an MEA from which you received MEA tax incentives, see the example below for computing business income in the MEA.

Example:

Pass-through entity	Trade or business income from Schedule K-1 (100S, 541, 565, or 568)	Entity's MEA apportionment percentage	MEA apportioned income
ABC, Inc.	\$40,000	80%	\$32,000
A, B, & C	30,000	10%	3,000
ABC, LLC	10,000	50%	5,000
Total			\$40,000

Part III Taxpayer's Trade or Business

Business Income or Loss

Use business income or loss from federal Form 1040 Schedules C, C-EZ, E, and F, plus California adjustments from Schedule CA (540 or 540NR) for each trade or business. Also, include business capital gains and losses from Schedule D and business gains and losses from Schedule D-1.

Income Computation

Note: To compute worksheet III and form FTB 3808, Side 1, you must complete worksheet II, Section B. The instructions below refer to Worksheet II, Section B.

Located Entirely Within the MEA

Line 6 – Line 9: If your business operation reported on federal Form 1040 Schedule C, C-EZ, E, F, or other schedule is entirely within the MEA, enter the income or loss from this activity in column (a) and enter 1.00 in column (b).

Line 11 and Line 12: If the gain or loss reported on Schedule D or Schedule D-1 (as adjusted on Schedule CA (540 or 540NR)) was attributed to an asset used in an activity conducted entirely within the MEA, enter the gain or loss reported in column (a) and enter 1.00 in column (b).

Located Entirely Within California

Line 6 – Line 9: If your business operation reported on federal Form 1040 Schedule C, C-EZ, E, F, or other schedule is entirely within California, enter the income or loss from this activity in column (a). To determine the apportionment percentage in column (b), complete Worksheet II, Section A.

Enter the percentage from Worksheet II, Section A, line 4, column (c) on Worksheet II, Section B, column (b).

Line 11 and Line 12: If the gain or loss reported on Schedule D or Schedule D-1 (as adjusted on Schedule CA (540 or 540NR)) was attributed to an asset used in an activity conducted entirely within California, enter the gain or loss reported in column (a). To determine the apportionment percentage in column (b), complete Worksheet II, Section A. Enter the percentage from Worksheet II, Section A, line 4, column (c) on Worksheet II, Section B, column (b).

Located Within and Outside California and the MEA

Line 6 – Line 9: If your business operation reported on federal Form 1040 Schedule C, C-EZ, E, F, or other schedule is within and outside the MEA and California, get Schedule R and complete line 1 through line 13b. Enter the amount from Schedule R, line 13b on column (a) of this worksheet. To determine the apportionment percentage in column (b), complete Worksheet II, Section A. Enter the percentage from Worksheet II, Section A, line 4, column (c) on Worksheet II, Section B, column (b).

Note: When computing Schedule R, disregard any reference to Form 100, Form 100W, Form 565, or Form 568. Also, disregard any reference to Schedule R-3, Schedule R-4, or Schedule R-5, and skip line 11.

Nonresidents that have an apportioning business that operates within the MEA should have already computed Schedule R, and can use those amounts when that schedule is referenced. Residents that have an apportioning business will not have completed a Schedule R for California income tax purposes since they are taxed on income from all sources. However, in order for residents to determine their California source business income for purposes of the MEA computation, they must also complete a Schedule R.

Line 11 and Line 12: If the gain or loss reported on Schedule D or Schedule D-1 (as adjusted on Schedule CA (540 or 540NR)) was attributed to an asset used in an activity conducted within and outside the MEA and California, get Schedule R and complete Schedule R-1. Multiply the gain or loss reported by the apportionment percentage on Schedule R-1, line 5 and enter the result on column (a). To determine the apportionment percentage in column (b), complete Worksheet II, Section A. Enter the percentage from Worksheet II, Section A, line 4, column (c) on Worksheet II, Section B, column (b).

Line 14 – If, in computing your income or loss, the result on line 14, column (c), is a **negative** amount, you do not have any business income attributable to the MEA. You cannot use any of the MEA hiring credit in the current taxable year.

If the amount on line 14, column (c), is a **positive** amount, enter the amount on Worksheet III, Part I, line 1 and line 3 (skip line 2).

Part III Computation of Credit Limitations

The amount of the MEA hiring credit you can claim on your California tax return is limited by the amount of tax attributable to the MEA business income. Use Worksheet III on form FTB 3808, Side 2 to compute this limitation.

If a taxpayer owns an interest in a disregarded business entity, the amount of the MEA hiring credit that can be utilized is limited to the difference between the taxpayer's regular tax computed with the income of the disregarded entity, and the taxpayer's regular tax computed without the income of the disregarded entity. For more information on disregarded business entities, get Form 568, Limited Liability Company Tax Booklet.

Partnerships must allocate the MEA hiring credit among the partners according to the partner's distributive share as determined in a written partnership agreement (R&TC Section 17039(e)).

The MEA hiring credit you are otherwise eligible to claim may be limited. Do not apply the credit against the minimum franchise tax (corporations and S corporations), the annual tax (partnerships, LLCs classified as partnerships, and QSub) the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

Refer to the credit instructions in your tax booklet for more information.

Members of a Unitary or Combined Group

The MEA hiring credit cannot be allocated or otherwise transferred to another taxpayer, even if the other taxpayer is a member of a unitary or combined group or otherwise affiliated with the taxpayer that earned the credit. For example, a subsidiary corporation that generates an MEA hiring credit cannot allocate the credit to the parent corporation.

S Corporations and the Application of the MEA Hiring Credit

An S corporation may use its MEA hiring credit to reduce the MEA tax at both the corporate and shareholder levels.

An S corporation may use 1/3 of the MEA hiring credit to reduce the tax on the S corporation's MEA business income. In addition, S corporation shareholders may claim their pro-rata share of the entire amount of the MEA hiring credits computed under the Personal Income Tax Law.

Example: In 2001, an S corporation qualified for a \$3,000 MEA hiring credit. The S corporation will be able to use 1/3 of the credit ($\$3,000 \times 1/3 = \$1,000$) to offset the tax on the corporation's MEA business income.

The S corporation will also pass through a \$3,000 MEA hiring credit to its shareholders to offset their individual tax (computed under the Personal Income Tax Law) on the MEA business income.

S corporations should attach form FTB 3808 to Form 100S, California S Corporation Franchise or Income Tax Return, to claim the MEA tax credits. If form FTB 3808 is not attached to the tax return, the credit may be disallowed.

Shareholders should attach Schedule(s) K-1 (100S), Shareholder's Share of Income, Deductions, Credits, etc., to their individual tax return.

Carryover

If the amount of credit available this year exceeds your tax, you may carry over any excess credit to future years until exhausted. Apply the carryover to the earliest taxable year(s) possible. In no event can the credit be carried back and applied against a prior year's tax.

For S corporations, the amount of the 1/3 credit that is in excess of the 1.5% entity-level tax (3.5% for financial S corporations) in the current year may also be carried forward and used in future years to offset the S corporation entity-level tax. See the instructions for Worksheet III, Part III for more information.

Credit Code Number

You must use credit code number 211 to claim the MEA hiring credit on your return. Using an incorrect code may cause a delay in allowing the credit.

Instructions for Worksheet III — Computation of Credit Limitations

Note: Worksheet III is on Side 2 of form FTB 3808.

Partnerships and LLCs classified as partnerships

Do not complete Worksheet III. The partners and members of these types of entities should complete Worksheet III in order to determine the amount of the MEA hiring credit that they may claim on their California tax return.

S corporations and their shareholders must complete Worksheet III.

Reporting Requirements of S Corporations, Estates, Trusts, Partnerships, and LLCs Classified as Partnerships

- Report to shareholders, beneficiaries, partners, and members, the distributive or pro-rata share of business income, loss, and deductions apportioned to the MEA; and
- Separately state any distributive or pro-rata share of business capital gains and losses apportioned to the MEA included in the amount above.

S corporations

Complete only Part I and Part III of this worksheet if your entity-level tax before credits is more than the minimum franchise tax.

Corporations and S corporations subject to the minimum franchise tax only
Complete only Part IV of this worksheet.

All others: Complete Part I and Part II of this worksheet.

Part I

Line 1 – Enter all trade or business income. See Part II for the definition of business income.

Line 2 – If your business is located entirely within the MEA, enter 1.

Specifically, this percentage is the apportionment percentage computed by the entity using Worksheet II, Section A, and it represents the percentage of the entity's business attributable to the MEA.

Line 4a – Compute the tax as if the MEA taxable income represented all of your taxable income.

Individuals

Use the tax table or tax rate schedule for your filing status in your tax booklet.

Exempt organizations

Use the applicable tax rate in your tax booklet.

Corporations and S corporations

Use the applicable tax rate.

Example: (Determination of the MEA Income for Shareholders, Partners, or Members of Pass-Through Entities)

John Anderson is vice president of ABC, Inc., an S corporation that has two locations: one within an MEA and one outside an MEA. Eighty percent (80%) of the S corporation's business is attributable to the MEA.

Note: This percentage was determined by ABC, Inc. using Worksheet II, Section A, when ABC's S corporation return [Form 100S] was prepared.

John divides his time equally (50/50) between the two offices of ABC, Inc. Jackie Anderson (John's spouse) works for ABC, Inc. at its office located in the MEA.

John and Jackie Anderson have the following items of California income and expense for the 2001 tax year:

John's salary from ABC, Inc.	\$100,000
Jackie's salary from ABC, Inc.	75,000
Interest on savings account	1,000
Dividends	3,000
Schedule K-1 (100S) from ABC, Inc.: Ordinary income	40,000

John's unreimbursed employee expenses from Schedule A	(2,000)
---	---------

The Anderson's MEA income (total amount to be reported on line 3) is computed as follows:

John's MEA salary ($\$100,000 \times 50\%$)	\$50,000
Jackie's MEA salary ($\$75,000 \times 100\%$)	75,000
Pass-through ordinary income from ABC, Inc. ($\$40,000 \times 80\%$)	32,000
John's unreimbursed employee business expenses ($\$2,000 \times 50\%$)	(1,000)
Total MEA income (Worksheet III, Part I, line 3) . . .	\$156,000

Note: The standard deduction and personal or dependency exemptions are not included in the computation of MEA income since they are not related to trade or business activities.

John and Jackie must compute the tax (to be entered on Worksheet III, Part I, line 4a) on the total MEA income of \$156,000 (as if it represents all of their income). Using the tax rate schedule in their tax booklet for filing status married filing joint, the 2001 tax computed on \$156,000 is \$10,813.

Line 4b – Corporations and S corporations:

If the amount on line 4b is the minimum franchise tax (\$800), you cannot use your MEA hiring credit this year. You should complete Part IV of the worksheet to compute the amount of credit carryover.

Part II

Use Part II on Side 2 of form FTB 3808 if you are a corporation, individual, estate, or trust. Corporations and S corporations that are subject to paying only the minimum franchise tax, go to Part IV.

Line 6A, column (e) – Enter the amount from line 5. This is the amount of limitation based on the tax on MEA business income.

Line 6A, column (f) – Enter the amount of credit that is used on Schedule P (100, 100W, 540, 540NR, or 541), column (b). The amount cannot be greater than the amount on line 6A, column (e) or the amount computed on line 6B, column (d). Enter this amount on form FTB 3808, Side 1, line 1.

Line 6B, column (b) – Enter the amount of the current year credit that was computed on Worksheet I.

Line 6B, column (c) – Enter the amount of the total prior year carryover of the credit. This is the amount of credit that was previously figured on Worksheet I in the prior year, minus the amount that was allowed to be taken on the prior year tax return.

Line 6B, column (d) – Add the amount of the current year credit on line 6B, column (b) and the amount of the total prior year carryover on line 6B, column (c).

Line 6B, column (e) – Compare the amounts on line 6A, column (e) and line 6A, column (f). Enter the smaller amount.

Example: Part II

The ABC Business has \$8,000 of tax. The business computed a credit limitation based on the MEA income of \$7,000 on Worksheet III, line 5. The business has the following credits:

Hiring credit — \$500 and a \$300 carryover from a prior year

Worksheet III, Part II would be computed as follows:

Part II Limitation of Credits for Corporations, Individuals, Estates, and Trusts

	(a) Credit name	(b) Credit amount	(c) Total prior year carryover	(d) Total credit (add col. (b) and col. (c))	(e) Limitation based on MEA business income	(f) Used on Schedule P (can never be greater than col. (d) or col. (e))	(g) Carryover (col. (d) minus col. (e))
6 Hiring credit	A				7,000	800	
	B	500	300	800	800		-0-

Line 6B, column (g) – Subtract the amount on line 6B, column (e) from the amount on line 6B, column (d). Enter the result on line 6B, column (g). This is the amount of credit that can be carried over to future years.

Note: This carryover includes both the Schedule P (100, 100W, 540, 540NR, or 541) limitation and the limitation based on MEA business income.

Part III

Use Part III on Side 2 of form FTB 3808 only if you are an S corporation.

Line 7, column (b) – Enter the amount of credit computed this year from Worksheet I. Also, enter this amount on Form 100S:

- Schedule C, line 4; and
- Schedule K, line 13.

You may need to adjust your Schedule C (100S) to reflect the MEA tax limitation (Part I, line 5) on your credit after completing this worksheet.

Line 7, column (c) – Multiply the amount on line 7, column (b) by 1/3. Enter this amount

in column (c). The amount in column (c) is the maximum amount of the current year credit that may be used by the S corporation to offset its 1.5% entity-level tax (3.5% for financial S corporations).

Line 7, column (d) – Enter the amount of the total prior year carryover of the credit (this is the amount of credit that was previously figured on Worksheet I in the prior year, minus the amount that was allowed to be taken on the prior year tax return).

Line 7, column (e) – Add the amount of the current year credit on line 7, column (c) and the amount of the total prior year carryover on line 7, column (d).

Line 7, column (f) – Enter the amount of credit that was used by the S corporation in the current year to offset its 1.5% entity-level tax (3.5% for financial S corporations). Enter this amount on form FTB 3808, Side 1, line 1.

Line 7, column (g) – Subtract the amount in column (f) from the amount in column (e). This is the amount of credit that can be

carried over to future years and used by the S corporation.

Part IV

Use Part IV on Side 2 of form FTB 3808 if you are a corporation or S corporation subject to paying only the minimum franchise tax.

Line 8, column (b) – Enter the amount of current year credit that was computed on Worksheet I. **S corporations** may enter only 1/3 of the amount from Worksheet I.

Line 8, column (c) – Enter the amount of the total prior year carryover of the credit. This is the amount of credit that was previously figured on Worksheet I in the prior year, minus the amount that was allowed to be taken on the prior year tax return.

Line 8, column (d) – Add the amount of the current year credit on line 8, column (b) and the amount of the total prior year carryover on line 8, column (c). This is the amount of credit that can be carried over to future years.

Standard Industrial Classification Manual, 1987 Edition (Partial Listing)

The Standard Industrial Classification (SIC) Manual is organized using a hierarchical structure, first by division, then by two-digit major groups within each division, then by three-digit industry groups within each major group, and finally by four-digit industry codes within each industry group.

Classification of business activities is based upon establishments, which are defined in the SIC Manual as an economic unit, generally at a single physical location, where business is conducted, or where services or industrial operations are performed. A taxpayer's enterprise may consist of more than one establishment. The SIC Manual provides the following examples of establishments: A factory, mill, store, hotel, movie theater, mine, farm, ranch, bank, railroad depot, airline terminal, sales office, warehouse, or central administrative office. Where distinct and separate economic activities are performed at a single physical location (such as construction activities operated out of the same physical location as a lumber yard), each activity should be treated as a

separate establishment where: (1) No one industry description in the SIC Manual includes such combined activities; (2) The employment in each economic activity is significant; and (3) Separate reports are prepared on the number of employees, their wages and salaries, sales or receipts, property and equipment, and other types of financial data, such as financial statements, job costing, and profit center accounting.

For purposes of this publication, SIC Codes 0211 through 0291, Code 0723, or Codes 2011 through 3999 are listed since only taxpayers with establishments in these industry codes qualify for the MEA hiring credit.

Codes for Principal Business Activity

This list of principal business activities and their associated codes is designed to classify a business by the type of activity in which it is engaged to facilitate the administration of the California Revenue and Taxation Code. For taxable years beginning on or after January 1, 1998, these principal business activity codes are based on the North American Industry Classification System published by the United States Office of Management and Budget, 1997 Edition.

Caution: For purposes of qualifying for the MEA tax incentive, refer to the Standard Industrial Classification Manual, 1987 Edition and the partial listing on pages 13 and 14 of this booklet.

How to Get California Tax Information

(Keep This Page For Future Use)

Your Rights as a Taxpayer

Our goal at the Franchise Tax Board (FTB) is to make certain that your rights are protected so that you will have the highest confidence in the integrity, efficiency, and fairness of our state tax system. FTB Publication 4058, California Taxpayers' Bill of Rights, includes information on your rights as a California taxpayer, the Taxpayers' Rights Advocate Program, and how you can request written advice from the FTB on whether a particular transaction is taxable. See "Where to Get Tax Forms and Publications" below.

Where to Get Tax Forms and Publications

By Internet – You can download, view, and print California tax forms and publications. Go to our Website at: www.ftb.ca.gov

Other state agencies information can be accessed through the State Agency Index located on the California State Website at: www.ca.gov.

By phone – To order California tax forms, publications, and the current year federal booklets, call our automated phone service. To order a form:

- Refer to the list in your tax booklet and find the code number for the form you want to order.
- Call (800) 338-0505 and follow the instructions.

Please allow two weeks to receive your order. If you live outside California, please allow three weeks to receive your order.

In person – Many libraries, post offices, and banks provide free California personal income tax booklets during the filing season. Most libraries and some quick print businesses have forms and schedules for you to photocopy (a nominal fee may apply).

Note: Employees at libraries, post offices, banks, and quick print businesses cannot provide tax information or assistance.

By mail – Write to:
